

■ TRM-35

■ Taxiway Edge Retro-reflective Marker

Compliance with Standards

SAC: GB/T 7256
 ICAO: Annex 14, Volume 1
 FAA: AC 150/5345-39

Application/Use

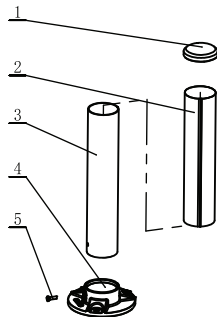

Airport taxiway, runway or apron reflective marking

Features

- Use imported diamond grade reflective film with high reflector efficiency
- Reflective film is heat resistant, cold resistant and corrosion resistant
- When the height is 350mm, the effective reflection area is larger than 15000mm
- Cylindrical structure, 360 degree omnidirectional visualization
- The PVC material protects the aircraft from damage when it happens
- All-weather use to meet daytime and night boundary instructions
- No need for power supply and to bury the cable
- Simple structure, easy to install, no need to maintain
- The stainless steel fasteners have good anticorrosive properties.

Structure

1. Uppercover
2. Reflective film
3. Body
4. Flange
5. Screw

Ordering Information

TRM-35-B

Type _____

TRM = Taxiway edge retro-reflective marker

Height _____

35 = 350 mm

Color _____

B = Blue

* For special orders, please provide detailed instructions.

Installation

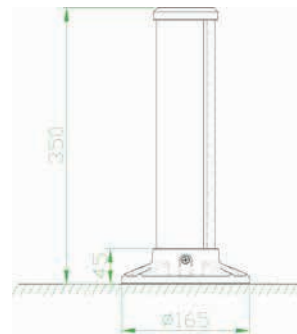

Fig 1. Install on the shoulder and fixed with the expansion screw

Packing Data

10pcs/box Size: 530×350×400mm³
 Gross weight: 10kg
